

Welcome to Green Point Acupuncture L.L.C. !

What is different about the Green Point Acupuncture L.L.C.?

Most US acupuncturists treat only one patient per hour and charge \$65 to \$175 per treatment in individual cubicles. In our clinic we use 5 tables in a large, quiet, soothing space, and treat multiple patients in an hour. We offer affordable acupuncture treatment on a sliding scale of \$15 - \$40 treatment fee (plus \$10 paperwork fee for the first visit).

Our Commitment to You

We want to make it possible for you to receive acupuncture regularly enough and long enough to get better and stay better. We will provide a safe environment with skilled practitioners.

What We Need From You

◆ Responsibility

Green Point Acupuncture L.L.C. does not provide primary care medicine! We *can* provide complimentary care for conditions which require a physician's attention -- for instance, we often treat patients for the side effects of chemotherapy.

◆ Flexibility

The community setting requires some flexibility from you. For instance, we have a few patients who snore. Other patients who dislike snoring bring earplugs to their treatments. We are grateful for this!

◆ Community-Mindedness

The soothing atmosphere in our clinic exists because all of our patients create it by relaxing together. Maintaining this reservoir of calm requires that no one talk very much in the clinic space. If you want to have a substantial conversation, we will probably need to schedule that separately.

◆ Commitment

Acupuncture is a PROCESS. It is very rare for any acupuncturist to be able to resolve a problem with one treatment. In China, a typical treatment protocol for a chronic condition could be acupuncture every other day for three months! Most of our patients don't need that much acupuncture, but virtually every patient requires a course of treatment, rather than a single treatment, in order to get what they want from acupuncture.
